

```
$chan = new \Co\Channel(5);

go(function() use ($chan) {
    for ($i=0;$i<5;$i++){
        go(function() use ($i, $chan){
            $mysql = new Swoole\Coroutine\MySQL();
            $mysql->connect([...]);
            $data = $mysql->query("select '{$i}' as data, sleep(2)");
            $chan->push($data[0]);
        });
    }
    for ($i=0;$i<5;$i++){
        $data = $chan->pop();
        print ($data['data']);
    }
    print "\n";
});
```

**Demo**
